Table of content

Add

- Lists are liek a train, you have a beginning, and you can add as much wagons as you want

```
>>> lst = []
>>> lst.append(0)
>>> lst
[0]
>>> lst.append(2)
>>> lst.append(1)
>>> lst
[0, 2, 1]
```

sort, remove

- if you want to rearange the wagons then you could sort them

```
>>> lst
[0 , 2 , 1]
>>> lst . sort ()
>>> lst
[0 , 1 , 2]
```

sort, remove

- if you want to rearange the wagons then you could sort them

```
>>> lst
[0, 2, 1]
>>> lst.sort()
>>> lst
[0, 1, 2]
```

- remove a wagon is as simple as you think

```
>>> lst.remove(1)
>>> lst
[0, 2]
```
